

CareerSource Broward (CSBD) is excited to announce that we can assist employers that have Registered Apprenticeship programs!

Registered Apprenticeships are structured training systems that allow participants to “**Earn As They Learn**” from day one, while working to become proficient at a particular trade or occupation. Apprenticeship programs offer paid on-the-job training with a sponsored employer on a full-time basis, with the goal of providing workers with advanced skills that meet the specific needs of employers.

Do you have a Registered Apprenticeship program and need financial assistance for training your apprentices?

CareerSource Broward’s Skills Upgrade On-the-Job Training program is the answer. We can pay up to 75% of the wages, during a portion of the training, for apprentices that have been in your Registered Apprenticeship program for 90 days or more. We help you, the employer, save money and remain competitive while the apprentices “**Earn As They Learn**”. Also, we may be able to assist with the cost of the apprentices’ tools and supplies related to the program.

Do you need to find candidates for your Registered Apprenticeship program?

Let CareerSource Broward help you with that. We will post the opportunity on our virtual job board, Employ Florida, where thousands of job seekers search employment opportunities each day. CareerSource Broward has trained staff that will search the system and refer interested candidates to your program.

Don’t have a Registered Apprenticeship program but would like one?

Not to worry. We can connect you to state and local resources to help you get started.

We are eager to speak with you **TODAY!** Call us at (954) 677-JOBS (5627).
